

Delivering the highest standard of **advanced medical concierge**

OVER A DECADE AGO, we launched our concierge medical membership in New Haven, Connecticut, right in the heart of the nation's premier medical hub, with Yale University Medical School in our backyard. We hand-selected our first 150 patients to experience a level of personalized care that was unlike any other. Since then, our community has grown exponentially, expanding throughout the Northeast, the South Coast, and even internationally.

TODAY, CareMedica Elite proudly extends its legacy of medical excellence to the residents of Palm Beach County, Florida. We invite you to place your health in the hands of our tenured medical doctors and concierge staff.

*"To know that you can call your doctor, be seen right away, and have all the time you need during an appointment, it has been **well worth** the investment for us."*

Richard | Member since 2017

*"Being someone who places great value in quality, I can confidently say that the quality of medical care here is **exceptional**."*
